

MT500 Spray Baggy Short

What Mountain Bike - MT500 Spray Shorts Review

"They didn't disappoint - the fit is roomy but not so much the legs balloon, and there's plenty of venting. We like the slight angle down over the knee, a refinement we usually expect to see in pricey models... They're a practical mix of all-out waterproof shorts but with the higher comfort level of more breathable baggies."

"Mix of waterproof shorts and comfort of breathable baggy options."
